Shorebird Science for Conservation

AOC 2026 side event program

2–6pm, 14th November 2026

LT50, University Town, National University of Singapore

Time	Event
14:00 – 14:20	**Host Introduction** Ginny Ying-Chi Chan – Nanyang Technological University, Singapore **Opening remarks** Zhang Zhengwang – Beijing Normal University, China
14:20 – 15:50	**Talks session 1 (15 mins each)** **Shorebird Working Group Introduction** David Li – Chair, EAAFP Shorebird Working Group **Shorebird tracking studies in the EAAF** Ginny Ying-Chi Chan – Nanyang Technological University **Applications of Satellite Tracking in Avian Movement Ecology** Ma Zhijun – Fudan University, China **Shorebird Tracking in Singapore** Yang Shufen & Samuel Ng – National Parks Board, Singapore **Migratory connectivity and the role of inland wetlands in supporting shorebirds in Mongolia** Batmunkh Davaasuren – Wildlife Science and Conservation Center, Mongolia **Biological Ubiquitous Network: Connecting Habitats and Data for Shorebird Conservation Science** Druid Technology
15:50 – 16:20	Tea break
16:20 – 18:00	**Talks session 2 (15 mins each)** **Tidal exposure duration reveals functional availability of intertidal habitats for shorebirds** Sayam U. Chowdhury – University of Cambridge, UK **Shorebird survey at Northern Selangor Coast, Malaysia**

	Jacelyn See – Malaysian Nature Society, Malaysia **50 Years of Studying Wader Migration in Kamchatka, Russia** Yuri Gerasimov – Russian Academy of Sciences, Russia **Genomic Ledgers and Flyway Links: Continental-wide genomic connectivity of Singapore's most common shorebirds** Tan Yenyi – Lee Kong Chian National History Museum, Singapore **Introduction to the Shorebird Conservation Evidence Handbook** Elize Ng – University Queensland, Australia **Introduction of Flyway scale planning for offshore wind farms** Aonghais Cook – The Biodiversity Consultancy, UK
